Launch Your Potential!

We engage gifted and high-ability students in high quality learning experiences designed to expose them to topics and ideas that are beyond those they might get in their typical classroom environment. This program serves students currently enrolled in grades K-5.

SEP is grounded in best-practices in curriculum & instruction. We have a dynamic staff of specialists in fields ranging from engineering to medical ethics to economics.

Past offerings include:
- Cell Biology; Create a Mobile Phone App;
- Greek Theater,
- Meteorology, Fluid Mechanics, Abstract Art, Architecture

See our website for this year’s class offerings.
